

Ling Li Wen
Interaction Designer

Hello! I am an interaction designer who enjoys translating my designs into code, particularly HTML, CSS and JavaScript/jQuery. I have strong interest in graphic design, typography and front-end development and strive to use my designs to make an impact on people's lives.

LANGUAGES

- English (Fluent)
- Mandarin (Conversational)

WORK EXPERIENCE

MAR 2020 – JUN 2020
Lendor

Took up the role of a Junior Product Designer for 4 months. I oversaw the design of the web application including consistency in fonts and colours, as well as creation and iteration of features. I worked together with the technical team to ensure that the implementation is of high-fidelity, and user experience is of a high quality, communicating with them on a regular basis. Being part of the start-up was a valuable and enriching experience as I also gained knowledge across multiple branches including marketing and sales.

MAY 2019 – AUG 2019
KPMG Digital Village

Interned as a UI/UX Designer for 3 months as part of the school's Internship Programme. I was involved in the UI design for an insurance application, such as creating micro-interactions and also helped to oversee minor details in the screens across the mobile application.
